Primary Care Centre - Arrow Park Road, West Wirral

brp architects were appointed by NHS Wirral and CareCapital to provide a new 2,000m² One Stop Shop for the West Wirral Group Practice.

Arrow Park is an area of natural beauty comprising 250 acres of parkland / deciduous woodland plus a 150 acre golf course. Heavily bounded with mature trees the site has a green belt backdrop, therefore the built form is purposely designed to minimise its physical impact through scale, massing and thoughtful material selection. This is further complimented with sensitive landscape proposals

integrating subtle points of access from the existing infrastructure.

Sustainability is at the heart of the design, focussing on high thermal and energy efficiency using multiple passive systems minimising consumption and maximizing the quality of the internal spaces.

This project was completed in January 2012 and has won both design and sustainability awards.
